THE ACADEMY BY DHI

THE ACADEMY by DHI embraces all of our global training and knowledge sharing activities. We develop and arrange training packages and facilitate access to research results, expert forums, networks, partnerships and technology.

THE ACADEMY offers a palette of courses, capacity development packages and workshops all designed to fit your needs and challenges. We offer standard and or tailored training and workshops.

MIKE Powered by DHI courses focus on practical skills, hands-on exercises and teaching you how to get the most out of your software. These courses also enable you to understand the power of the MIKE tools for building decision support systems.

Thematic courses allow you to apply concepts, applications and decision support principles to the entire business process within current areas: aquaculture & agriculture, energy, climate change, flooding, coast & marine, surface & groundwater, urban water, industry, environment & ecosystems, product safety & environmental risk, etc.

Our trainers and facilitators are experienced professionals, many of whom are recognised international experts in their fields. The use of highly skilled trainers guarantees the quality of THE ACADEMY courses.
